RELEASED

November 6, 1991

Secretary of State James A. Baker III, Class of '52
The United States State Department
Washington, D.C.

Dear Secretary of State Baker:

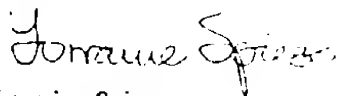

We are writing to provide you with a list of individuals whose human rights have been violated by the Chinese government. This list was compiled by the scholars of the Princeton China Initiative and includes colleagues who have been imprisoned for their political beliefs, as well as others who are denied the right to work or to travel abroad. We sincerely hope that in your meetings with Chinese government leaders you will ask for the speedy resolution of these human rights cases.

Our organization, the Princeton China Initiative, was founded shortly after the June 4, 1989 massacre through the generosity of John Elliott, a Princeton alumnus Class of '51. Princeton now provides over twenty prominent Chinese scholars, reformist policy makers, student leaders and pro-democracy activists with the opportunity to continue their research and writing. As a Princetonian, we thought you might be interested in the Initiative and are enclosing some materials on the project. While at the University, the scholars are engaged in research on the policies of the 1989 Democracy Movement and participate in a faculty lecture program on the history of Western political institutions.

I would also like to take this opportunity to thank you for your efforts on behalf of the scholars here at Princeton, many of whom have been helped by pressure from the United States government. As you know, such negotiations allowed Fang Lizhi to leave China and more recently enabled four of our scholars to be reunited with their wives and children.

We are confident that your upcoming trip will result in the resolution of other human rights issues. On behalf of the scholars at the Princeton China Initiative, I wish you a successful trip to China and thank you for your concern about Chinese human rights.

Yours sincerely,

Lorraine Spiess
